Definition

Wisdom

Wisdom is the ability to apply knowledge, understanding, and good judgment in a way that leads to right decisions and meaningful living. It is more than intelligence or information—it is knowing what to do, when to do it, and how to do it with discernment, humility, and purpose.

Biblically, wisdom is often connected to reverence for God, moral understanding, and living according to truth.

Mind-

The mind is the part of a person that thinks, understands, feels, remembers, imagines, and makes decisions. It is where your thoughts, emotions, reasoning, and awareness exist.

The mind is the center of thought, perception, understanding, and consciousness within a person.

God-

God is the supreme divine being who created all things, knows all things, and rules with perfect love and wisdom.

Mother-

A mother is a woman who gives life, nurtures, protects, teaches, and loves her children with care, wisdom, and sacrifice. A mother is often seen as the heart of the family, providing guidance, strength, comfort, and support.
